häwa at a glance – we support you all over the world

Our mission – our motto

- **Our mission**

Häwa products ensure worldwide that their valuable technology is and remains reliable and ready for use at any time.

häwa works every day with great personal commitment to develop, produce and continuously improve individual solutions for our customers.

- **Our motto**

Ideen leben

Living ideas means for us to promote creativity each and every day, to always strive for the best possible solution, and to develop optimum customized products together with our customers.

Our mission – our motto

- **Customer-focused**

We listen, advise and support you. In summary: We are your reliable partner, working closely together and providing customized solutions for your individual requirements.

- **Personal**

We focus on direct contact – your personal hawa consultant is always there for you, bringing your ideas to life and guiding you on your way to the optimum solution for your specific requirements.

- **Forward-looking**

We surprise you with individual ideas and sophisticated solutions, always meeting or even exceeding your expectations – both today and tomorrow.

Our single goal is: finding the optimum solution for your challenge.

Our mission – our motto

- **Reliable**

We are your reliable partner even in difficult situations – especially regarding the functional reliability of your components which is the most important factor for you.

Our motto is: We keep our promises. It is in fact very simple.

- **High-quality**

We place the highest demands on the quality of our products. Thanks to our sophisticated concept, construction and design not only our products meet or even exceed the legal requirements.
